Subject: August Sampling - Silverton

Hi All

Attached are maps and tables that summarize the sampling that EPA will be conducting next week. These tables and maps provide detail (and some modification) that was missing in the 2015 SAP. If you would like to view the whole SAP it can be downloaded at <https://drive.google.com/file/d/0BxEIqFmTlSiDZmhNXzJzMi1nMnc/view?usp=sharing>.

An additional map(s) that depicts mine waste and sediment sampling location as described in "Aug2015 Sediment and MineWaste LocationsV2.xlsx" will be forthcoming.

TechLaw has rented a house at 961 Bluff Street, Silverton, Colorado 81433 and we will be meeting there at 3 pm on Monday Aug 3 for a H&S briefing, sampling protocols, gear organization and logistics for the week. Please make that if you can but if not we will fill you in on Tuesday morning.

Please feel free to contact me if you have questions or concerns.

Dan
